

**iVOX** is now available on your web browser!

**Yes!** The same amazing iVOX titles available on your mobile device or tablet are now larger than life! [ivox.libraryideas.com](http://ivox.libraryideas.com)

No download required when using a browser!

The Library now subscribes to [iVOX](http://ivox.libraryideas.com). Read, Watch, and Interact. All in one app!

VOX Books are the world's first audio books that live within print books. The permanently attached VOX Reader transforms an ordinary print book into an all-in-one read-along, immersing users in the narrative like never before.

iVOX brings favorite stories to life with three dimensional characters and scenes that children can explore. Confident readers can practice their skills in a new and fun way, while emerging readers will be helped along by the engaging narration. iVox captivates children and parents by creating a truly educational and hands on reading experience.

It's as easy as downloading the app, selecting a book, and tapping play!

**iVox is an interactive storybook app for children ages 4-10.**

**Books check out for 1 week with a limit of 12 at a time.**

**Kids can download the app and type in the library name or zip code. Select LGPL and add in their library card number.**

If you are in the library and enter through the link on the Kid's page, you don't need a library card.
